-FOLLOW ALL INSTRUCTIONS CAREFULLY TO PREVENT DAMAGE-

Controller Model Number: **NSFX-GE350 SS** or **NSFX-GE700 SS**

NEVER POWER THE SYSTEM UNLESS THE WIRING IS COMPLETE

Upgrading your controller from a 2 or 3 light kit to a 4 light kit requires a quick easy program change to your controller.

Changing programming from a 2/3 light controller to 4 light controller

Follow these instructions carefully. Start with the controller in the off mode. Press and hold the switch on for 60+ seconds. When 60+ seconds expire the lights that are connected will blink 3 times to indicate that the controller has been switched to **4 light mode**. Immediately disconnect power and rewire lights to the 4 light configuration. When power is reapplied the lights will work as normal.

Changing programming from a 4 light controller to 2/3 light controller

Follow these instructions carefully. Start with the controller in the off mode. Press and hold the switch on for 60+ seconds. When 60+ seconds expire the lights that are connected will blink 2 times to indicate that the controller has been switched to **2/3 light mode**.
